NUMBER 204

## FRISCO GRAND JURY MISSING MAN IS FOUND TO MAKE DETAILED REPORT AFTER WEEK'S EXPOSURE

Will Tell of Work Done in Indicting City and Police Officials For Graft.

## WILL ALSO MAKE RECOMMENDATIONS

Changes In Police Force and Other Kindred Matters Will Receive Much Attention From Men Composing Famous Inquisitorial Body.

San Francisco, Calif., August 29.—The leading members of the grand jury, the men who have borne the burden of the work in pursuing and indicting bribers and bribe takers are preparing to formulate a detailed report of the work of the grand jury to be issued when that body as at present composed goes out of existence. Never in the history of any grand jury in any city has there developed the interest that is current regarding the final report of the work of the grand jury.

The plan to issue a full report of the investigations undertaken originated some time ago and met with instant and strong opposition from the heads of three sub-committees of the grand jury. After argument had been tried and in vain, a compromise was effected, and it was agreed that in addition to Foreman Oliver's report there should be supplementary reports of the sub-committee chairman on each municipal department under investigation.

This plan was accepted by the minority, for in that way no record would be made public by the grand jury showing that Ruef, Glass and other prominent men who are not officials of the city had been indicted. In this way the reports of committees would show that Schmitz and other officials of the boodling gang had been attacked and the names of Ruef and others equally guilty and more responsible would be eliminated from the report.

The feeling has been growing, however, that a purely statistical report by Foreman Oliver and the several committees would do but scant justice to the fame the grand jury has achieved by work. Re-asserting this the grand jury has conferred and a voluminous report will be the result.

The report will embody the method of checking the grand jury in Judge Graham's courtroom last November. Incidentally a special chapter will be devoted to the fight made by indicted capitalists that the body is an illegal one. The work of organization will be described and the selection of committeemen to investigate the municipal departments referred to.

To Tell of Revelations  
Then will come the story of the revelations of municipal corruption to which the grand jury listened in March of this year. The sensational filing of indictments by scores and the further investigation of the various corporations, the work of the boodling supervisors were enriched will be described.

The report will further tell of the efforts of the grand jury to defeat justice by every trick known to scientific rogues. It will tell of the shadowing of grand jurymen by detectives employed by the defense, of the intimidating of witnesses, of Ruef's sensational seizure of the office of district attorney, of probings into the affairs of the Home Telephone company and of the United Railroads. The report will contain a chapter devoted to the launching of indictments against officials of public service corporations, members of a real estate syndicate and the finding of true bills against former Chief of Police Dinan.

157 Indictments  
The report will show an approximate number of indictments to date a period exceeding ten years. Of 157, the number of individual counts will exceed 325. Eighteen supervisors, a mayor, a political boss and suspected bribe-takers in the number of seventeen will be the record of scoundrels. The bonds set will have reached \$2,270,000 and the investigation will have covered a period exceeding ten months.

## MISSING MAN IS FOUND AFTER WEEK'S EXPOSURE

Despite Constant Rain and no Food He Is None the Worse.

## WANDERS FOR WEEKS DELIRIOUS AND ILL

He Had Evidently Partially Regained Consciousness For He Was Healed For Mountain-air When Discovered by Searching Party.

Mountainair, N. M., August 29.—(Special.)—Howard Coleman, the young Helen cut-off engineer, who wandered away in a demented condition almost a week ago, was found near here this morning. Though without nourishment during the entire time of his wanderings, and exposed to constant rain day and night, he shows but little effect of his experiences and physicians who have examined him today believe that he will soon recover.

Coleman, who has been employed on the cut-off for some time, was taken ill last Friday and brought to his home here. In a moment of delirium, he evaded the nurse and wandered away.

Search has been kept up constantly and it was generally believed that the missing man must be dead, as he was in a very weak, delirious condition when he escaped from his room. Only one or two traces of him were discovered until this morning, when one of the searchers saw a man with torn clothing, coming toward the town and investigation proved that it was Coleman.

Exposure Cured Him  
The effect of the delirium had almost passed away and to the surprise of everyone who saw the man, he seemed much better physically than when he was last seen before his disappearance. Despite the rains of almost every day and night, and the fact that he had no food, he had not suffered and is apparently on the road to a rapid recovery. All traces of fever seem to have left him.

Knows Little of Wanderings  
Coleman told a few of his friends, whom physicians permitted to talk with him this morning, that he knows very little of his wanderings being unaware of his plight until he regained consciousness this morning and became aware that he was in a strange place. He was not far from Mountainair, and he readily recognized a trail leading to the town. Strong and apparently in good shape, he pushed along and would soon have reached his room if he had not been discovered.

Had Walked Far  
The condition of his clothing shows that he had evidently wandered constantly during his absence, though he must also have slept, at times, as his condition does not indicate much fatigue. If he had anything to eat, he does not remember it. He presumed that he had plenty of water, as there was much rain and he undoubtedly encountered plenty of places where he could drink.

A message has been sent to Coleman's mother at Des Moines, Ia., informing her that he has been found. Yesterday she was notified that he had wandered away and it was feared that he was dead, hence the second message will be one of joy to her. Coleman will pay her a visit as soon as he is fully recovered and physicians are willing for him to travel.

## FALLING SCAFFOLD CAUSES TWO DEATHS

New York, August 29.—Two men were killed and one fatally injured by the falling of some scaffolding at the New York county jail, which is being rebuilt. The scaffold was wrecked by an 800-pound piece of granite falling on it and the men were thrown to the ground. The dead are: EDWARD A. COOK, assistant foreman.

WILLIAM FREY, stonemason. The probably fatally injured are: T. E. Cunningham, stonemason. Emory Potterell, stonemason.

FORMER ARMY SURGEON DEAD AT KANSAS CITY.  
Kansas City, Mo., August 29.—Dr. Augustus Coe van Duyn, a former surgeon in the United States army, died at his home last night of dropsy, aged 74. He entered the army in 1862 and was mustered out with the rank of brevet lieutenant colonel.

## BUBONIC PLAGUE HAS CAUSED NINE DEATHS

San Francisco, Calif., August 29.—Since June 13th, nine cases of bubonic plague have been discovered here and seven deaths have occurred. The federal authorities have sent a marine hospital surgeon here and coasting vessels are being inspected by the quarantine officers. The health officers say that there is no cause for alarm.

## THE TEDDY KIDS AS AERONAUTS

## KNABENSHUE'S AIRSHIP IS DESTROYED BY STORM

Live Wire Blown Against It at Iowa State Fair.

Exhibit Damaged to Extent of \$100,000

Des Moines, Ia., August 29.—A wind storm swept the Iowa state fair grounds early today causing damage estimated at five hundred thousand dollars. A live wire was blown against the Knabenshue airship and the captive balloon, setting fire to them and destroying both. The big tent of the International Harvester company was blown down and a costly exhibit ruined by heavy rain and fire.

Storm Was Severe.  
The storm was one of the worst that ever passed over the state and the amount of damage done is as yet not known. It passed over the fair grounds, which are on the outskirts, the Knabenshue airship and the captive balloon, which were both part of the state fair exhibit, being directly in the path of the wind. The big gas monsters swayed from side to side but their moorings held, until the live wire was blown against them and in a moment both were in flames and a few moments later, totally destroyed.

The big tent of the harvester company and its exhibit was near the balloon and when the wind struck it, the whole outfit fell. Lights on the inside set the canvas afire and the employees fled in confusion. The exhibit, which is almost a total loss.

## SPANIARD WHO SHOTS INDIAN IS EXONERATED

Los Angeles, Calif., August 29.—Francisco Amato, a Spaniard, who shot and killed Prosopio Montoya, formerly of Isleta, N. M., an Indian, who attacked him last Friday, was exonerated by the verdict of the coroner's jury, rendered yesterday afternoon at the undertaking parlors of Breese Bros.

According to Librarian Chas. F. Lummis, chief witness for the defendant, Montoya had hit Amato, who attempted to get away, with a stone and that the latter had shot only when his life was in danger.

SWEDISH PRINCE WILL NOW SETTLE DOWN.  
New York, August 29.—Having gone through a rather arduous round of social duties in New England and having discharged his official obligations by a visit to President Roosevelt at Oyster Bay, Prince Wilhelm of Sweden, will spend the rest of his time here as informally as he can.

## M'KINLEY MONUMENT WILL BE DEDICATED

Buffalo, N. Y., August 29.—H. H. Butler, chairman of the McKinley monument commission, has announced the program for the dedication of the marble obelisk in Niagara square on Sept. 5. Governor Hughes will be the orator of the day. Civil, military, political and judicial honors will be paid to the martyred president, and an international character will be given to the occasion by the presence of thousands of Canadian troops.

## TAFT SPENDS TODAY IN DENVER, GUEST OF CITY

Took Breakfast at "Wolhurst," Country Home of Thomas F. Walsh.

Reception at Noon and Speech Later

Denver, Colo., August 29.—Secretary Taft was warmly greeted by a large crowd at the Union station on his arrival in Denver this morning. As the guest of Thomas F. Walsh, the secretary and his party and thirty prominent citizens, took breakfast at "Wolhurst," Mr. Walsh's country place. During the forenoon Secretary Taft inspected Fort Logan. At noon a general reception, attended by Democrats as well as Republicans was held at the Republican Club. Following the reception the secretary sat down to a luncheon in the Brown Palace hotel with one hundred leading republicans of Colorado.

The secretary is scheduled to make a public address at the capitol grounds at 3:30 o'clock this afternoon.

Car Repairer Killed  
El Paso, Texas, August 29.—Chas. S. Gore, a car repairer employed by the El Paso and Southwestern in the Octavio street repair yards, was instantly killed this morning by being crushed under a cut of freight cars that were backed down upon him while he was crawling under to go to work.

## HETTY GREEN'S TAXES \$148,000 TAX CASE IS DECIDED FOR DEFENDANT

Her Objection to Assessment Will Probably be Costly to Her.

Chicago, Ill., August 29.—Hetty Green, of New York, who owns property in Chicago worth between four and five millions, may appear before the board of review early next week and submit to a questioning concerning her exact holdings in real estate, and her reasons why her assessments should be reduced. This plan was formed by the members of the board last night, the question of Mrs. Green's taxes on down town property worth nearly two millions having come up.

The board has no power to compel the attendance of any one upon its sessions and there is a possibility that Mrs. Green may ignore the request to appear. In that case there is a possibility that her other property in various parts of the city may have its assessment increased from 10 to 20 per cent.

## LOSS AT HAKODATE WAS \$15,000,000

Yokohama, Japan, August 29.—A fire at Hakodate place the loss caused by the configuration there, at fifteen million dollars. About fifteen thousand houses were burned and sixty thousand people are homeless. The form of estimates of the loss are regarded as low.

## FRISCO'S BEST TRAIN RAN INTO OPEN SWITCH

Wrecking of "Meteor" Today Causes Injury to Three People.

Third in Week Near Same Part of Road

Oklahoma City, Okla., August 29.—The fast Frisco train No. 409, known as the "Meteor," which left St. Louis at 2:30 o'clock yesterday afternoon and was due here at noon today, ran into an open switch near Tulsa, I. T., early this morning and was wrecked. One mail clerk and two passengers were injured.

The engine, two baggage cars and a mail car, left the track. The Meteor is one of the fastest trains on the Frisco system and carries two Pullman sleeping cars, two chair cars, one cafe, observation car, together with two baggage cars and one mail car. Today's wreck is the third one within a week in the vicinity of Tulsa.

Officials of the system are unable to explain the wrecks, but admit that they believe the accidents are caused by some enemy of the road. The worst of the wrecks occurred a week ago, causing four deaths, wrecking an entire train and blocking traffic for 26 hours.

Detectives are making an examination and propose to cause arrests if any clue to the alleged perpetrators of the outrages can be obtained.

## NUMA RAYMOND WINS SUIT IN THIRD JUDICIAL DISTRICT COURT

Her Objection to Assessment Will Probably be Costly to Her.

Chicago, Ill., August 29.—Judge Frank W. Parker, sitting for the third judicial district today found for the defendant in the suit of the territory vs. Numa Raymond, a tax case which involved the sum of \$148,000.

Raymond, who is now a resident of Geneva, Switzerland, according to the contention of the authorities at Las Cruces, his former home, owned mortgages on land, etc. in that neighborhood, which were subject to taxation in this territory. The suit to collect the sum of \$148,000 was brought and the district court has now decided against the territory.

## HARAHAN WOULDN'T TALK ABOUT FIGHT

Chicago, Ill., August 29.—President J. T. Harahan, of the Illinois Central railroad, arrived in this city today from New York. He refused to discuss in any way the meeting of the directors in New York yesterday in which he had a personal encounter with Stayveant Fish.

## TELEGRAPHERS' STRIKE LANDSLIDE THREATENS IN FORCE MUCH AS EVER TO TOWN

Little Change to Be Noted in the Situation. Despite All Rumors to the Contrary.

## HELEN GOULD HOPE OF WOMEN STRIKERS

She and Mrs. Russell Sage May Intervene to Win Their Point—Government Wire Presumably Destroyed by Union Men.

Chicago, Ill., August 29.—If there is any change in the telegraphers' strike, it is not apparent here. President Small's announcement that the union is slowly gaining ground is apparently the truth for in this city less business is being handled by the two companies than at any time during the strike. All messages are still subject to delay.

Reports from unions all over the country indicate the same state of affairs and there seems to be but little doubt that the strike is as greatly in force today as at any time during its existence.

President Clowry, of the Western Union, has stated that he will treat with the men as men but not with them as a union, and he will even speak to President Small.

Helen Gould Their Hope  
New York, August 29.—If the strike of 10,000 telegraphers throughout the country is to be settled through the influence of Helen Gould and Mrs. Russell Sage, Mrs. Rose Pastor Stokes, wife of J. G. Phelps Stokes, who was a factory girl a year or two ago, has been doing missionary work in the behalf of the 2,000 women strikers who went out with the men when the strike order was issued. Mrs. Stokes has met the girl telegraphers in this city and their story has won her sympathy. A friend of Mrs. Stokes said yesterday:

"Mrs. Stokes is doing, but I want to say that she is by no means idle. She believes that the girl telegraphers are even worse off than factory girls. We are content that she will be able to influence Miss Gould, who with her brothers, are the principal stockholders of the Western Union, and with Mrs. Russell Sage, who is a public-spirited woman and will not tolerate any wrong doing. We feel sure that they will respond to the appeal of Mrs. Stokes."

What They Want  
The official organ of the telegraphers, published for the first time today under the caption, "What do the telegraphers want?" says:

"Equal pay for equal work. Women telegraphers are now paid only half as much as the men. 'Free typewriters.' 'Real and not mock arbitration.' General Manager Brooks of the Western Union says: 'We will gladly meet any reasonable demand, but not Mr. Small. We do not propose to recognize unions or organized labor in any way.'"

Destroy Government Wire.  
Camp Perry, Ohio, August 29.—Striking telegraphers are engaged with having interfered with business of the federal government, and as a result soldiers are patrolling the telegraph lines between Camp Perry and La Crosse, a distance of three miles. Anyone caught interfering with that line will be brought to Camp Perry and later turned over to the civil authorities. This action was made necessary by the strikers, or their sympathizers completely destroying communication between Camp Perry and the outside world after 10 o'clock. The trouble began about 3:30 p. m. when an operator broke in on Camp Perry office and called them scab. There was constant breaking and interruption, the camp of the telegraphers was surrounded and were forced up a midnight with thousands of words unsent, much of which was government matter from regular U. S. and National Guard officers to their superiors. This afternoon a detachment of signal corps men sent over the line between Camp Perry and La Crosse, found a loop of heavy wire had been tied about the four wires midway, with one end attached, completely destroying the service.

## SPECIAL PARDON FOR CHANG'S ASSAILANT

Tokio, Japan, August 29.—It became public today that Koyama, the Japanese who assaulted and wounded Li Hsing Chang in 1895 during the Chinese-Japanese peace negotiations, and who was sentenced to life imprisonment, received a special pardon on August 25.

COUNT WITTE RETIRING FROM OFFICIAL LIFE.  
London, August 29.—Count Witte, once the most powerful man in Russia next to the emperor, has accepted the directorship of the Bank of Russia for exterior commerce, according to advisers received from St. Petersburg. This act, it is stated, marks the final severance of the ex-premier from official life in his country.

## LANDSLIDE THREATENS DESTRUCTION TO TOWN

## HUNDREDS FLEEING FROM GREAT PERIL

Movement of Slide Is Gradually Increasing and It Threatens to Engulf Whole Valley—Part of Suburb of Pittsburgh Ruined.

Pittsburgh, Pa., August 29.—With their homes' windows breaking and chimneys sinking deep into the earth, several hundred foreigners have fled from their homes in Port Vue suburb fearing death in the landslide which threatens to bury Scott street's twenty-five dwellings. One hundred yards below the Pittsburgh & Lake Erie railroad company recently started to make a cut far below the houses, and cut far between the cut and the hillside on which the houses stand, is underlain with soft shale and soap stone. The whole mass has been slowly slipping toward the cut during the past twenty-four hours.

The street has moved a hundred yards with houses dropped thirty feet below their original level, bursting the gas and water mains and leaving half the village without light or fire protection. Three hundred men are at work today vainly endeavoring to check the landside.

Big Section Threatened.  
The whole section of the country below the Pittsburgh & Lake Erie tracks is threatened with the landslide and many hundreds of acres of valuable land will undoubtedly be overwhelmed, as the weight of the slide is so great that nothing can stop it until it finds its level. It has reached the section devastated by the slide is 100 yards wide and three quarters of a mile long. The slide is moving at the rate of 15 yards per day, but it is even faster at times. It is believed that it will finally rush into the valley.

Workmen Nearly Killed.  
During the night part of the slide, which the workmen were endeavoring to stop, rushed down on them like lightning and they narrowly escaped death. Several of them were caught in the mud and one of the cut which the railroad had made, and their comrades rescued them with difficulty. Officers have been placed on guard around the landslide and all people and animals will be kept out of its way until it finally stops. It is estimated by officials of the railroad company that the damage it has caused exceeds \$100,000, and that still more will be caused before the movement stops.

## WILLARD LOTS ARE O. K. SAYS BERGER

Colonel W. M. Berger of Belen, secretary and general manager of the Willard Townsite, said also of the Belen Townsite Improvement company, who has been in Santa Fe for the past week on legal business, spent today in Albuquerque.

Having noticed the article in the Citizen that the First National bank, which had been in possession of the Willard real estate situation, he said: "The article referred to is absolutely false in every particular and I believe the paper has been imposed upon by designing parties who were attempting to hold up the Willard Townsite company. The facts are that the First National bank, who claimed to have jumped town lots in Oklahoma, thought they could come to New Mexico and do the same thing here. They claimed without any foundation whatever that the half breed Sioux script, with which the town was located, had been turned down by the government."

"I think the First National bank, the best script used in the locations of public lands. Owing to the order which has been issued by President Roosevelt during last March, all patents to lands were held up pending investigations by special agents, because of alleged land frauds in the west."

When these lands were sold to the present lot holders, none of whom have become dissatisfied at the present status of the case, a contract was delivered to each purchaser by which the townsite company obligated itself to deliver deeds thirty days after it had received its patents; possession of the land being immediately given. There are now \$200,000 worth of improvements on the townsite, consisting of brick, concrete and frame dwellings. Willard now has a population of 350 people, four hotels and a large hotel. The Belen field and Willard Mercantile company are erecting a fine large building to cost \$25,000, the streets are all laid out and the Santa Fe Railway company has just completed a fine two-story tower depot which will be open to the public about September 15th. The railway's right of way runs through the center of the townsite. The Santa Fe Central railway has also completed a large new frame depot and made other improvements. Colonel Berger will go from here to Willard and will give the full facts in the case for publication in a few days. There is no excitement at Willard.
